Subject: Update on CZARA and Oregon Team Meeting

Hi Jayne,

You don't have to respond Ex. 6 - Personal Privacy I just wanted to give you a few updates on CZARA.

CZARA. As you know since you were on the phone, it looks like we're back to a January 31, 2015 deadline for a final disapproval or a notice of intent to approve. It's clear that we need to review and respond to comments on ag and the disapproval. Ex. 5 - Attorney Client

Ex. 5 - Attorney Client

Lastly, I was talking with Alan because I'm helping on forestry and ag, and we ended up asking Helen whether she could help us review ag. So I hope that was okay to go ahead and do that. We started getting worried that with our time on the Riparian Rule that we needed more help and wanted to get her time.

OR TMDL Workload Meeting. Next Thursday from 2-3:30pm, we have our Oregon TMDL workload meeting. I wanted to make sure we have coverage on all the TMDL work, but as I was thinking more, this meeting is also about figuring out what the biggest needs are in Oregon and whether we're all staffed well-enough on 303(d), CZARA, and TMDLs. For instance, I think CZARA is the most important thing for me to work on, but what does that mean for TMDLs? Anyway, I thought it would be good for you, Jill, and I (I'm going to also talk to Martha) to think of tasks where we know we'll need help, make sure those are assigned, and that people are working on what they want to work on. I also thought we could identify gaps where we could either get others from the unit to help out or get the ORISE fellow to take on. So FYI on that. I'm going to pull something together this PM hopefully.
